

## Pro Low Voltage LED Cable

2 Cores - Max. 11 Amps - PVC - 0.5mm<sup>2</sup>

tagra®

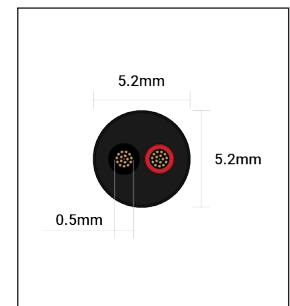

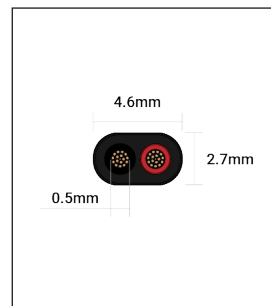

SKU: TC2C.5

### Key Features

- ▶ 11A Current Capacity
- ▶ 60V Voltage Rating
- ▶ Made in the UK
- ▶ Black or White, PVC
- ▶ 10M, 50M & 100M
- ▶ 0.5mm<sup>2</sup> Conductor

### Dimensions

### Product Data

| Conductor Cores                           | Conductor Cross Section      | Current Rating    | Dimensions       |
|---|------------------------------|-------------------|------------------|
| 2x (16/0.20mm)                            | 0.5mm <sup>2</sup>           | 11.0A per core    | -                |
| Manufacture Standards                     | Conductor                    | Cable Sheath      |                  |
| ISO 6722-1:2011 (Class B)                 | Bare Copper BS EN 60228:2005 | PVC               |                  |
| Voltage Rating                            | Operating Temp               | Flame Propagation | Min. Bend Radius |
| Max. 60V                                  | -40°C ~ +105°C               | ISO 6722-1:2011   | 30mm             |
| Chemical Resistance to:                   |                              | BS Softness       | Shore A Hardness |
