6 Metres	> 48W
7 Metres	> 56W
8 Metres	> 64W
9 Metres	> 72W
10 Metres	> 80W

DESCRIPTION

Introducing our smallest, most flexible LED Neon yet. The 4x10mm offers a non-spotting, fully diffused light output. The splashproof silicon coating is fully flexible with a bend radius of up to 30mm, making it ideal for use in signage and display installations both indoors and outdoors.

Neon Flex is a durable fully diffused linear light perfect for furniture and signage manufacturers thanks to its easy to install plug and play technology. This neon can be cut easily to your desired lengths at the allocated cut points. Maximum length at any time is 5 metres before visible voltage drops occur.

This 5m kit comes with everything you will need for installation, including mounting brackets, endcaps, silicone sealant and plug and play cable compatible with our Syndeo Easy to Use range. N.B. Syndeo driver not included.

Neon Flex can be dimmed via mains dimming, DALI, DMX, RF or 0-10 controllers.

Our 4x10 Micro Neon Flex comes with a 3 year guarantee as standard on indoor installations (1 year on outdoor installations).
