## DESCRIPTION

Our Circular Display Neon Flex offers flexible illumination in an 18mm diameter, making it perfect for single use display lighting both indoors and outdoors.

Neon flex can be used in some instances to replicate traditional neon where fragile glass isn't suitable. Neon Flex looks better than glass neon - and it opens all the environments where fragile Glass Neon cannot be used. As the name suggests, it is highly flexible. LED Neon Flex can be bent to a minimum radius of 8 cm, and can be cut easily to your desired lengths with the use of 4.17cm cut points. Maximum Length at any time is 9 metres.

For a working Neon Flex installation you will need:

- Neon Flex LED
- 1 x Neon Flex Power Cable
- 1 x Neon Flex Connector Pin
- 1 x Neon Flex End Cap
- 1 x 24V Power Supply
