Assembly Instructions

1. Completely unpack the product, taking care to locate all parts included in the diagram above.
2. Remove any additional packaging, fully uncoil cables, strip light and remove any cable ties.
3. Locate both ends of the DC connector (D) and connect together.
4. Remove the insert that covers the battery (CR2032) on the remote control (B).
5. Plug in (A) and operate the switch to turn on the LED neon tube (E).
6. Use the remote control (B) to operate the product.

Remote Control

- 1. Turn ON/OFF**
Press 'I' key to turn on or press 'O' key to turn off.
- 2. Remote Indicator**
This indicator blinks when the remote control is working.
- 3. Dynamic Modes**
Press 'MODE+' and 'MODE-' to select dynamic modes.
- 4. Dynamic Mode Speed**
Press 'SPEED+' and 'SPEED-' to set the running speed of the dynamic modes.
- 5. DEMO**
Press 'DEMO' key to play the dynamic modes in loop, with each mode repeating 3 times.
- 6. Brightness**
Press the two sun keys to adjust the colour brightness.
- 7. Colour Setting**
The keys in this area set the RGB static colour.
Press the coloured keys to set the corresponding RGB static colour.
For other static colours, press 'COLOR+' and 'COLOR-' key to select from the preset library colours.

Remote Control (continued)

- 8. Using the remote controller**
The RF wireless remote has a range of about 10M without obstacles.
The tube and remote control may experience interference if installed near metal objects.
- 9. Pair a new remote controller**
The remote controller and tube are paired to one another straight out the box.
One remote control can be setup to control a maximum 5 tubes.
To pair another remote control to a tube:
1). Turn off the power to the tube, wait 5 seconds and then turn the power back on.
2). Press 'SPEED+' and 'SPEED-' keys simultaneously for 3 seconds. Make sure you do this within 10 seconds of turning the tube back on.
The LEDs will flash quickly if the remote has successfully paired.
- 10. Keep one remote and forget others**
In some cases, one tube might be paired with the maximum of 5 remote controls, but these extra remote controls are no longer needed.
Using the remote control you want to keep, pair the remote and tube again as stated above. The tube will then unpair with all other remote controls and recognise the current remote control only.
